

HRS™ II

The High Retention System* for Sanitizers and Disinfectants

For Equipment and General Environmental Surfaces such as in the Food Processing Industry, Livestock and Hatchery Premises

**FMC patent pending*

HRS™ II foam additive is a concentrated adjuvant designed to provide visual marking and to increase sanitizer retention time. HRS™ II may be used with FMC peroxyacetic acid products labeled for use with surfactants or for generation of foam, or with products intended for general cleaning. Refer to the directions on the product label to ensure compliance.

Directions for use:

1. Prepare a sanitizer or disinfectant solution according to the product label directions, using water at or above 35°F.
2. Add HRS™ II at 0.4 to 4.0 fl. oz. per gallon of diluted sanitizer or disinfectant solution. *Adding HRS™ II before filling with water could result in excess foam and prevent complete filling.*
3. Mix well. Use of foam generating equipment is necessary for foam applications.
4. Spray foam sanitizer on desired surfaces. For high foam and longer retention times, increase air pressure. For less foam and shorter retention times, decrease air pressure.
5. For food contact surfaces, allow foam to dissipate or rinse remaining foam with a sanitizing rinse prior to start of production. HRS™ II foam additive is not intended/approved for direct food contact. Remove excess foam on a nonfood contact surface with a potable water rinse.

STORAGE AND HANDLING: Follow good industrial hygiene procedures when handling this product. Store above 35 °F. Do not store near radiant heat sources or in cool areas. In the event HRS™ II solidifies, use an appropriate means of heating the container to liquefy the product and then apply gentle agitation.

CONTAINER DISPOSAL: Use of a defoaming agent to aid rinsing is acceptable. Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

DISPOSAL: Do not contaminate water, food or feed by storage or disposal. Dispose of HRS™ II in accordance with all local, state and federal regulations.

KEEP OUT OF REACH OF CHILDREN WARNING

PRECAUTIONARY STATEMENTS HAZARD TO HUMANS AND DOMESTIC ANIMALS

WARNING. May cause irritation to the eyes, skin and respiratory system. Do not get in eyes, on skin or clothing. Rinse thoroughly with water after handling. Remove contaminated clothing and wash clothing before reuse. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.

FIRST AID

Refer to product MSDS for further information.

IF IN EYES: Hold eyelids open and flush with a steady, gentle stream of water for 15 minutes. Get medical attention if irritation occurs and persists.

IF ON SKIN: Wash with plenty of water. Get medical attention if irritation occurs and persists.

IF INHALED: Remove victim to fresh air. If not breathing, give artificial respiration, preferably mouth-to-mouth. Get medical attention.

IF SWALLOWED: Drink 1 to 2 glasses of water. Do not give anything by mouth to an unconscious person. Call a doctor or get medical attention.
